

A computer readable form (CRF) copy and a paper copy of a substitute "Sequence Listing" are submitted herewith. Also submitted is a verified statement that the CRF copy and the paper copy are the same.

The substitute Sequence Listing and amendments to the specification and claims in connection therewith involve only matters of form necessary to conform to the sequence listing rules of the U.S. Patent and Trademark Office 37 CFR \$1.1821-1825. The substitute Sequence Listing has necessitated renumbering of the sequences. The specification and claims have been amended to accurately identify the renumbered sequences. The claims 6, 7, 8, and 15-17 have been amended as suggested by the Examiner to overcome specific rejections thereto. No new matter has been added.

Applicants respectfully submit that upon entry of the foregoing amendments, the application will conform to the requirements of 37 CFR §§ 1.821-1.825.

Respectfully submitted,

Date: 4/26/99
